

2019

MARINE

Marine fish farming is characterized by its professionalism and rapid development. We are front runners in this field, developing trendsetting fish feed for European bass and sea bream.

Sinking feed

Designed for Recirculating Aquaculture Systems (RAS)

Floating feed

Sustainable fishfeed

Semi-floating feed

With astaxanthine

Free from land animal protein

Low nitrogen and phosphorus emission

High digestibility

Improved resistance

Omega-3 fatty acids

Alltech® COPPENS

DEDICATED TO YOUR PERFORMANCE

AQUATE™

Innovative premix in all **Alltech Coppens'** feeds.

- + Optimizes growth
- + Supports immune response
- + Optimizes digestive function
- + Contributes to mucous barrier protection
- + Contributes to external barrier protection

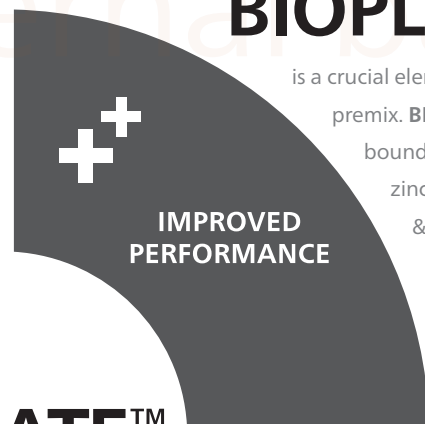

BIO-MOS®

is a mannan-oligosaccharide, which is known to bind and drain opportunistic bacteria. This can result in a significant improvement of the intestinal flora. Additionally, it can improve the structure and length of the microvilli in the gut through which the nutrient intake can increase. **BIO-MOS®** contributes to mucous barrier protection.

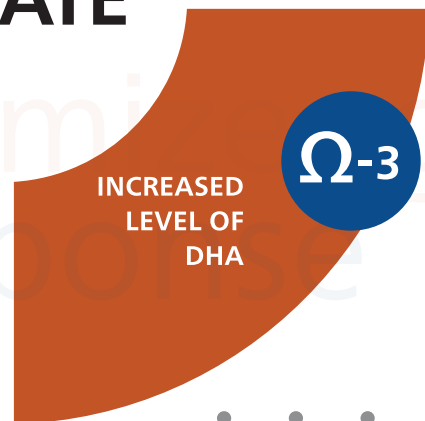

BIOPLEX®

is a crucial element in our new premix. **BIOPLEX®** are organically bound trace elements such as zinc, copper, manganese & iron. With **BIOPLEX®** we can improve the health, growth & performance of the fish.

ACTIGEN®

is derived from yeast cell walls and supports the fish's immune response. **Actigen®** furthermore optimizes growth in fish.

Alltech® COPPENS

- High energy starter diet
- Intensive farming
- High performance
- Phase feed for optimal efficiency
- High survival
